

Consulting & Recruitment Services

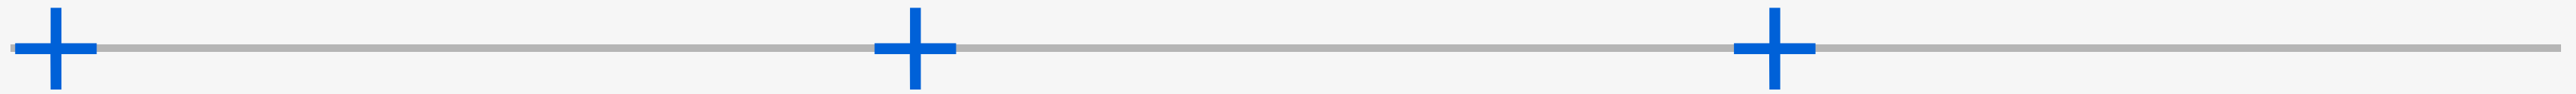

CASE STUDY

Challenges

They need someone who can

Fill out missing details on recruitment reports
(Current employment status, contact details, etc.)

Research more than 20 individuals using different platforms to correct their information.

Filter candidates to find the best fit, answer call backs, send mass emails, and LinkedIn reach out.

Solution

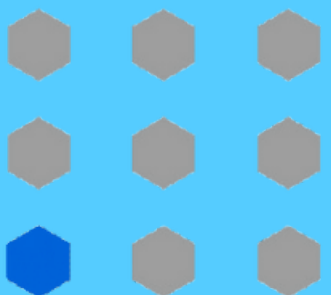

What we did

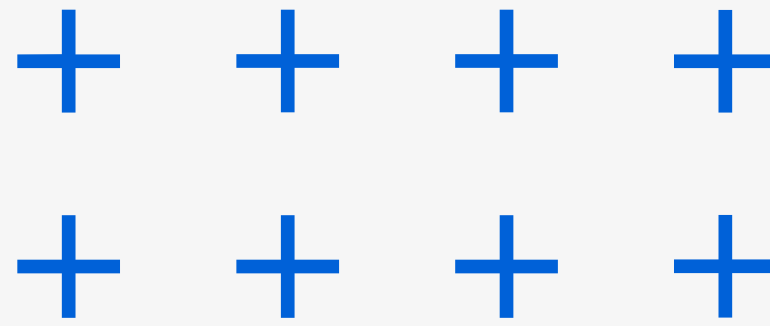

Created an excel file that served as a database for all reports. The database helped tracked the information needed and updates.

Efficiently researched using an applicant tracker tool and ensured quality information was delivered.

Thoroughly filtered candidates with the right qualifications and promptly communicated with candidates in different channels.

Results

- Efficiency increased within the team.
- Database and information gathering improved.
- Research is conducted faster.
- More prompt communication with candidates.
- Client was relieved from doing time-consuming activities and was able to focus more on their business.
