

Workday Consulting Services

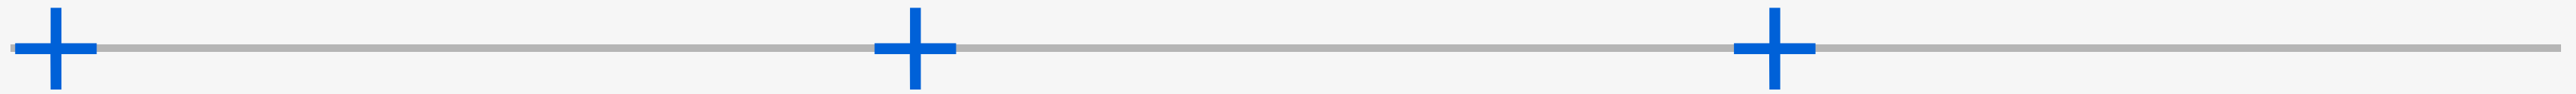

CASE STUDY

Challenges

They need someone who can

Finding leads from over a thousand employees from thousands of companies that use workday

Filtering these leads according to their position and tag them properly on the database.

To sift through spreadsheets and check which of these leads use workday in their companies.

Solution

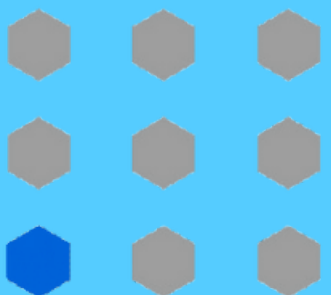

What we did

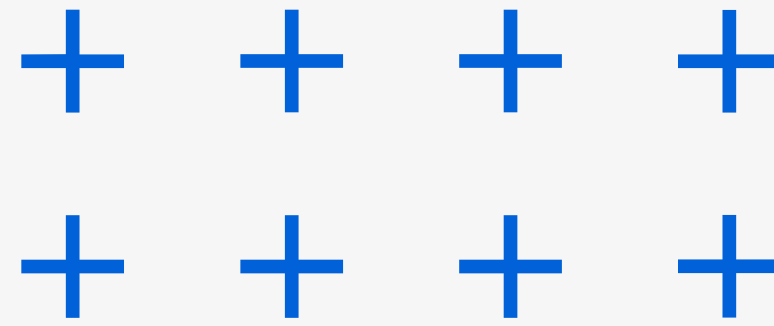

5 virtual assistants worked on separate spreadsheets with 500 + contacts each.

The VAs meticulously check each company listed and tagged the appropriately as instructed by the client into different HR groups.

The virtual assistants worked simultaneously and constantly communicated with each other to achieve a common goal.

Results

- Each of the VA completed the work assigned to them in a timely manner.
- The virtual assistants successfully contacted more than 1000 + leads from the database.
- The client saved on operational costs and the work was done efficiently without sacrificing quality.
